Mr. Garrison

We have just held a parlor consultation here at Dr. Pease - Harrah Fuller's - D. J. May, Beriah Green, Powell, Dr. P. and wife and myself - on matters pertaining to prospects before - all are united that good faith & honor demand ~~us~~ to go forward (with a series of A.S. conventions planned for N.Y. State) - and leave the responsibility of free speech or its suppression with the people of the places we visit - Mr. May read us ~~over~~ Mrs. Chapman's

letter to him - to which we
listened with great interest -
- we hope for a refreshing
time ^{at} Portland - though
we learn here that Mr.
Fish is ill -

I trust you are
better - and that no
personal harm may come
to you or Phillips or any
of the little band of the
true & the faithful who
shall defend the right at
your annual meeting -

Yours
D. D. A.
